FLE TRIBE

BONUS COURSE · TESTING, PERFORMANCE & SHIPPING · FRIDAY · ASSIGNMENT BRIEF

Production-ready capstone

Take your Week 18 capstone and make it production-ready.

Due: Friday, 23:59 **Submit:** GitHub repo + live URL

Done when

- [ ] At least 5 tests that pass on every push (GitHub Actions)
- [ ] Lighthouse accessibility and performance 90+
- [ ] Deployed, with environment variables set on the host
- [ ] README with a passing CI badge

How to submit

GitHub repo + live URL, by 23:59 on Friday. Submit it in the app on this week's Friday page: paste the link to your work and add notes for your reviewer (what you built, one thing that broke, and how you fixed it).

Complete the task **independently**. You may research and ask questions, but the work must be your own.

How it's reviewed

- **Works**: it does what the brief asks.
- **Clean**: readable, well named, no dead code.
- **Understood**: you can explain every line.
- **Shipped**: submitted on time, with a short README.

Be ready to discuss on Saturday

- Show a failing test, then fix it.
- What did Lighthouse flag, and what did you change?
- What would you check before every release?
