FLE TRIBE

BONUS COURSE · TAILWIND CSS · FRIDAY · ASSIGNMENT BRIEF

Bootstrap page, rebuilt in Tailwind

Rebuild your Week 05 Bootstrap landing page in React + Tailwind, then compare the two.

Due: Friday, 23:59 **Submit:** GitHub repo + live URL

Done when

- [ ] Same sections and content as your Bootstrap version
- [ ] Your brand colours and font defined in `@theme`
- [ ] Responsive, with dark mode and visible focus states
- [ ] README with a short Bootstrap vs Tailwind comparison

How to submit

GitHub repo + live URL, by 23:59 on Friday. Submit it in the app on this week's Friday page: paste the link to your work and add notes for your reviewer (what you built, one thing that broke, and how you fixed it).

Complete the task **independently**. You may research and ask questions, but the work must be your own.

How it's reviewed

- **Works**: it does what the brief asks.
- **Clean**: readable, well named, no dead code.
- **Understood**: you can explain every line.
- **Shipped**: submitted on time, with a short README.

Be ready to discuss on Saturday

- Show both versions side by side.
- Which was faster to build? Which is easier to change?
- When would you choose Bootstrap, and when Tailwind?
