FLE TRIBE

WEEK 01 · FRIDAY · ASSIGNMENT BRIEF

Trace a page load

Pick any public website and document its journey from URL to pixels.

Due: Friday, 23:59 **Submit:** A shared Google Doc link with screenshots

Done when

- [ ] Explain, in your own words, the 8–10 steps from typing the URL to seeing the page
- [ ] Screenshot the Network tab and label: the HTML document, a CSS file, a JS file, an image
- [ ] Report 3 status codes you found and what they mean
- [ ] Run Lighthouse and list the top 2 suggestions it gives

How to submit

A shared Google Doc link with screenshots, by 23:59 on Friday. Submit it in the app on this week's Friday page: paste the link to your work and add notes for your reviewer (what you built, one thing that broke, and how you fixed it).

Complete the task **independently**. You may research and ask questions, but the work must be your own.

How it's reviewed

- **Works**: it does what the brief asks.
- **Clean**: readable, well named, no dead code.
- **Understood**: you can explain every line.
- **Shipped**: submitted on time, with a short README.

Be ready to discuss on Saturday

- Walk the group through your page load in under 3 minutes.
- What surprised you in the Network tab?
- Where does frontend responsibility start and end in this journey?
