FLE TRIBE

WEEK 10 · FRIDAY · ASSIGNMENT BRIEF

Your projects under Git

Put every project you've built so far under Git, the way a professional would.

Due: Friday, 23:59 **Submit:** A shared link (CodePen, Google Drive or GitHub)

Done when

- [ ] One Git repository per project, each with at least 3 meaningful commits
- [ ] A `.gitignore` in each project
- [ ] One feature built on a branch and merged into main
- [ ] One merge conflict created and resolved (describe it in your notes)

How to submit

A shared link (CodePen, Google Drive or GitHub), by 23:59 on Friday. Submit it in the app on this week's Friday page: paste the link to your work and add notes for your reviewer (what you built, one thing that broke, and how you fixed it).

Complete the task **independently**. You may research and ask questions, but the work must be your own.

How it's reviewed

- **Works**: it does what the brief asks.
- **Clean**: readable, well named, no dead code.
- **Understood**: you can explain every line.
- **Shipped**: submitted on time, with a short README.

Be ready to discuss on Saturday

- Show your commit history. Do the messages tell a story?
- Walk us through the conflict you resolved.
- What's one Git command you'll use every day?
