WEEK 11 · FRIDAY · ASSIGNMENT BRIEF

Everything on GitHub

Move all your work to GitHub and practise the team workflow.

Due: Friday, 23:59 **Submit:** GitHub profile link

Done when

- [ ] Every project pushed to GitHub, each with a README
- [ ] One feature added on a branch and merged through a pull request
- [ ] One project with a `package.json` and at least one npm script
- [ ] Your best repositories pinned on your GitHub profile

How to submit

GitHub profile link, by 23:59 on Friday. Submit it in the app on this week's Friday page: paste the link to your work and add notes for your reviewer (what you built, one thing that broke, and how you fixed it).

Complete the task **independently**. You may research and ask questions, but the work must be your own.

How it's reviewed

- **Works**: it does what the brief asks.
- **Clean**: readable, well named, no dead code.
- **Understood**: you can explain every line.
- **Shipped**: submitted on time, with a short README.

Be ready to discuss on Saturday

- Show your commit history. Do the messages tell a story?
- Walk through your pull request.
- How did reviewing your own pull request feel?
