FLE TRIBE

WEEK 16 · FRIDAY · ASSIGNMENT BRIEF

Ship your projects on Vercel

Put your React projects online with Vercel.

Due: Friday, 23:59 **Submit:** Your three live Vercel links

Done when

- [ ] Product catalogue, Task manager and Book finder live on Vercel
- [ ] Refreshing any page works (no 404s)
- [ ] One preview deployment created from a pull request
- [ ] Live links added to each project's README

How to submit

Your three live Vercel links, by 23:59 on Friday. Submit it in the app on this week's Friday page: paste the link to your work and add notes for your reviewer (what you built, one thing that broke, and how you fixed it).

Complete the task **independently**. You may research and ask questions, but the work must be your own.

How it's reviewed

- **Works**: it does what the brief asks.
- **Clean**: readable, well named, no dead code.
- **Understood**: you can explain every line.
- **Shipped**: submitted on time, with a short README.

Be ready to discuss on Saturday

- Share your live links. Do they work on a phone?
- What went wrong while deploying, and how did you fix it?
- What did the preview deployment let you check?
