FLE TRIBE

WEEK 18 · FRIDAY · ASSIGNMENT BRIEF

Capstone

Ship an original React app of your own design.

Due: Friday, 23:59 **Submit:** GitHub repo + Vercel live link + 2-minute demo video (optional)

Done when

- [ ] Your own idea, written as a short spec
- [ ] Uses components, props, state, routing, a form and at least one API or data source
- [ ] Styled with Bootstrap and works on phone and laptop
- [ ] Live on Vercel, with a README containing screenshots and a "what I learned" section

How to submit

GitHub repo + Vercel live link + 2-minute demo video (optional), by 23:59 on Friday. Submit it in the app on this week's Friday page: paste the link to your work and add notes for your reviewer (what you built, one thing that broke, and how you fixed it).

Complete the task **independently**. You may research and ask questions, but the work must be your own.

How it's reviewed

- **Works**: it does what the brief asks.
- **Clean**: readable, well named, no dead code.
- **Understood**: you can explain every line.
- **Shipped**: submitted on time, with a short README.

Be ready to discuss on Saturday

- Demo day: 5–minute presentation per student.
- Peer feedback: one strength, one improvement.
- Your next 3 months: what will you build and learn?
