FLE TRIBE

WEEK 18 · WEDNESDAY · LESSON GUIDE

User testing & fixes

This week: Finish, polish and present your capstone.

Watch, don't help

Ask two people to complete your app's main task while you watch silently. Every time they hesitate, that's a design problem, not their mistake.

Fix in order

- Anything that stops someone finishing the task.
- Anything that confused more than one person.
- Small visual polish, last.

Know when to stop

When the main task is smooth on phone and laptop, stop polishing and get ready to present.

Research questions

Answer these in the app, in your own words, to unlock the next lesson.

1. Where did your tester get stuck?
2. Which fix made the biggest difference?
