FLE TRIBE

WEEK 19 · TUESDAY · LESSON GUIDE

GitHub profile & CV

This week: Get ready for your first frontend job: portfolio, GitHub, CV, applications and interviews.

Your GitHub profile

- Add a profile README: who you are, what you're learning, your stack.
- Pin your best repositories.
- Every project gets a README with screenshots and setup steps.

A one-page CV

- Lead with projects, not a long list of tools.
- For each project: what you built, the tech used, and one result or challenge you solved.
- Keep it to one page and send it as a PDF.

Research questions

Answer these in the app, in your own words, to unlock the next lesson.

1. Write your profile README.
2. Cut your CV to one page. What did you remove?

Start your research here
