FLE TRIBE

WEEK 02 · FRIDAY · ASSIGNMENT BRIEF

Personal profile page

Build a single HTML page about yourself using only HTML, no CSS.

Due: Friday, 23:59 **Submit:** A shared link (CodePen, Google Drive or GitHub)

Done when

- [ ] Uses header, nav, main, at least 2 sections, footer
- [ ] A photo with meaningful alt text, a list of skills, links to your GitHub
- [ ] A contact form with name, email, message, all labelled and validated
- [ ] Passes the W3C validator with zero errors

How to submit

A shared link (CodePen, Google Drive or GitHub), by 23:59 on Friday. Submit it in the app on this week's Friday page: paste the link to your work and add notes for your reviewer (what you built, one thing that broke, and how you fixed it).

Complete the task **independently**. You may research and ask questions, but the work must be your own.

How it's reviewed

- **Works**: it does what the brief asks.
- **Clean**: readable, well named, no dead code.
- **Understood**: you can explain every line.
- **Shipped**: submitted on time, with a short README.

Be ready to discuss on Saturday

- Show your page with CSS disabled. Does it still make sense?
- Which semantic element were you unsure about?
- Live demo: tab through each other's forms.
