FLE TRIBE

WEEK 05 · FRIDAY · ASSIGNMENT BRIEF

Landing page in Bootstrap

Build a responsive landing page for a made-up product (a study-planner app) with Bootstrap 5.

Due: Friday, 23:59 **Submit:** A shared link (CodePen, Google Drive or GitHub)

Done when

- [ ] Sections: navbar, hero, 3 features, pricing (3 plans), FAQ (accordion), footer
- [ ] 1 column on phones, 3 columns on laptops
- [ ] Your own brand colour and font
- [ ] Lighthouse accessibility score 90+

How to submit

A shared link (CodePen, Google Drive or GitHub), by 23:59 on Friday. Submit it in the app on this week's Friday page: paste the link to your work and add notes for your reviewer (what you built, one thing that broke, and how you fixed it).

Complete the task **independently**. You may research and ask questions, but the work must be your own.

How it's reviewed

- **Works**: it does what the brief asks.
- **Clean**: readable, well named, no dead code.
- **Understood**: you can explain every line.
- **Shipped**: submitted on time, with a short README.

Be ready to discuss on Saturday

- Show your page at phone and laptop width.
- Which Bootstrap components did you use, and what did you customise?
- Bootstrap vs your Week 04 CSS: what felt faster, and what felt worse?
