FLE TRIBE

WEEK 06 · FRIDAY · ASSIGNMENT BRIEF

Console programs

Write four small programs that run in the browser console.

Due: Friday, 23:59 **Submit:** A shared link (CodePen, Google Drive or GitHub)

Done when

- [ ] A tip calculator function: bill and percentage in, tip out
- [ ] FizzBuzz from 1 to 100
- [ ] A temperature converter (Celsius ↔ Fahrenheit) as two functions
- [ ] A function that returns a letter grade for any score, with tests in comments

How to submit

A shared link (CodePen, Google Drive or GitHub), by 23:59 on Friday. Submit it in the app on this week's Friday page: paste the link to your work and add notes for your reviewer (what you built, one thing that broke, and how you fixed it).

Complete the task **independently**. You may research and ask questions, but the work must be your own.

How it's reviewed

- **Works**: it does what the brief asks.
- **Clean**: readable, well named, no dead code.
- **Understood**: you can explain every line.
- **Shipped**: submitted on time, with a short README.

Be ready to discuss on Saturday

- Explain one of your functions line by line.
- What error message confused you most this week?
- How did you test your code?
