FLE TRIBE

WEEK 07 · FRIDAY · ASSIGNMENT BRIEF

Student grade book

Write a JavaScript program (run in the browser console or a page) that manages a list of students.

Due: Friday, 23:59 **Submit:** A shared link (CodePen, Google Drive or GitHub)

Done when

- [ ] Store at least 6 students as objects: name, three scores
- [ ] Functions to compute each average, the class average, the top student
- [ ] Use `map`, `filter` and `reduce` at least once each
- [ ] Print a letter grade (A–F) for each student

How to submit

A shared link (CodePen, Google Drive or GitHub), by 23:59 on Friday. Submit it in the app on this week's Friday page: paste the link to your work and add notes for your reviewer (what you built, one thing that broke, and how you fixed it).

Complete the task **independently**. You may research and ask questions, but the work must be your own.

How it's reviewed

- **Works**: it does what the brief asks.
- **Clean**: readable, well named, no dead code.
- **Understood**: you can explain every line.
- **Shipped**: submitted on time, with a short README.

Be ready to discuss on Saturday

- Explain one function line by line.
- What error message confused you most?
- How did you use the debugger?
